PUWER Training

For more information, visit our PUWER Training webpage.

COURSE CONTENTS

This training course is broken down into 3 sections

1. PUWER Responsibilities
2. Safe Standard
3. Protection and Controls

LEARNING OUTCOMES

- Understand and show commitment to the Provision and Use of Work Equipment Regulations 1998
- Learn about how to properly maintain equipment including inspections and if the equipment is fit for purpose
- Understand which equipment applies to PUWER

ABOUT THIS COURSE

PUWER stands for The Provision and Use of Work Equipment Regulations. It provides needed guidelines to demonstrate how you can stay safe when using equipment at work. The regulations place duties on people and companies who own, operate or have any sort of control over work equipment. PUWER also places responsibilities on businesses and organisations whose employees use work equipment.

Our CPD Accredited Online PUWER Training aims to educate you on when equipment is suitable for use, safe to use, inspected properly and accompanied by suitable health and safety measures. This course is perfect for working towards compliance with current legislation.

You will find that some types of work equipment are subject to other legislation, such as LOLER (Lifting Operations and Lifting Equipment Regulations). You may, therefore, find our LOLER Training useful.
