This training course is broken down into 5 sections

- 1 Background
- 2 Fire Prevention
- 3 Fire Evacuation
- 4 Fire Extinguishers and Classes
- 5 Legislation Overview

LEARNING OUTCOMES

- ✔ Understand the kind of fire hazards you might encounter on a construction site
- ✔ Learn about the actions you **MUST** take if you encounter a fire
- ✔ Understand and meet the requirements of The Fire Safety Order 2005 and Construction Design and Management Regulations 2015

ABOUT THIS COURSE

A complete in-depth Fire Warden eLearning course **aimed specifically at those working in the Construction industry**. This course provides everything you need to be able to demonstrate competence in the role of Fire Warden or Fire Marshal.

Assigning Fire Warden duties to a responsible person on site is a key part of ensuring good health and safety, and demonstrates a commitment to implementing sound emergency fire procedures.

This **Fire Warden Training in Construction Course** covers your duties under fire legislation, as well as looking at fire prevention measures, the correct use of fire extinguishers, and how to organise a fire drill. We also have a [Fire Awareness for Construction course](#).
