# First Aid Appointed Person Training

For more information, visit our [First Aid Appointed Person Training](#) webpage.

## COURSE CONTENTS

This training course is broken down into 2 sections

- 1 Health and Safety Requirements
- 2 Dealing with an Emergency

## LEARNING OUTCOMES

- ✓ Learn about and understand the First Aid Regulations 1981
- ✓ Understand as the first Aid Appointed person what your role and responsibilities are
- ✓ Learn what information you need to gather to inform the emergency services

## ABOUT THIS COURSE

For many smaller low-risk companies, the **legal minimum** for first aid provision is to have someone in their company who simply looks after first aid - this is the **First Aid Appointed Person**.

Over **600,000** non-fatal injuries happen in the workplace each year in the UK - it is therefore **essential** that there is at least one person available at all times to deal with any potential accidents and injuries.

Our First Aid Appointed Person training programme explains exactly what the role of **First Aid Appointed Person** requires a member of staff to do, as well as introducing best practice in the event of an accident or injury at work.

It is intended that our programme is used alongside [First Aid Requirements in the Workplace \(including RIDDOR\)](#). This programme will indicate the need for a first aid appointed person, as well as explaining the benefits to your organisation. Free trial and online demo available.

This eLearning course only provides awareness education. Face to face training would be needed in addition in order to complete all-round skills and knowledge to be able to carry this forward practically in your organisation.
