# Risk Assessment Training

For more information, visit our [Risk Assessment Training](#) webpage.

## COURSE CONTENTS

This training course is broken down into 3 sections

- 1 Hazards and Risks
- 2 The 5 Steps to Risk Assessment
- 3 Risk Assessment Tool

## LEARNING OUTCOMES

- ✔ Understand the 5 steps of a risk assessment, as well as how to create a plan of action for the hazard you find
- ✔ Show your commitment to The Management of Health and Safety at Work Regulations 1999
- ✔ Learn when you should fill out a risk assessment and when they are not necessary

## ABOUT THIS COURSE

This **online Risk Assessment training** is designed to help businesses comply with **Health and Safety regulations**, as well as learn to and carry out structured risk assessments in the workplace.

Whatever sector your organisation operates in, risk assessments are a crucial part of ensuring employees are **safe from harm** and that workplace risks are **anticipated** and **reduced** as much as is reasonably possible.

**By law**, every employer **must** undertake this kind of assessment for health and safety risks within their working environment. This course gives a clear, structured overview of what a risk assessment is, as well as explaining each stage of how to perform one in a clear, step by step manner.

As well as **helping with legal compliance**, this course will show you how to **assign ratings to workplace risks**, as well as put appropriate **control measures** in place. Minimise the risks to your business and your employees today by getting instant access to our risk assessment training.

Our course is broken down into 3 sections; defining hazards and risks and when they need to be recorded, the 5 steps of risk assessment & the risk assessment tool you could use to carry out your assessment.

We also offer an [accident reporting training course](#) which complements this course perfectly.
